

EDUCATION 

## EDUCATION

Avonite Surfaces products are ideal for the challenges of the education market. For heavily trafficked student areas including dormitory rooms and bathrooms, the durability of Avonite Surfaces lowers the overall maintenance costs for universities. With over 100 stylish colors, an added flair can be brought to any project. As the surface leader in Sustainable Design, you have all you need to incorporate green practices into any Education project.

## EDUCATION APPLICATIONS

- Dormitory Work Areas
- Windowsills
- Student Bathrooms Including Vanities and Shower Stalls
- Fitness Facilities, Including Service Counters, Locker Room Facilities, and Bathrooms
- Backlit Walls
- Student Service Areas
- Food Service Areas, Including Hot and Cold Bars, Food Preparation, and Dining Tables

## BENEFITS OF AVONITE SURFACES

### HYGIENIC

Whether utilized in food preparation areas, serving bars, or dining tables, the non-porous characteristic of Avonite Surfaces products ensures that you'll have the safest surface available in food services applications.

### DYNAMIC LOOK

Avonite Surfaces is the most beautiful surface product available. Not only does Avonite Surfaces have the broadest range of colors available, you have the design flexibility to add treatments including backlighting and thermoforming.

### SUSTAINABLE DESIGN

Avonite Surfaces Recycled Collection achieved SCS Certification in 2005, each product containing a minimum of 40% post-industrial waste. Customizable sheet dimensions allow construction waste to virtually disappear in dormitories and other large facilities.

### DURABLE

Students are notoriously hard on facilities. With Avonite Surfaces, dormitory and student service areas will have a longer lasting and better looking product, lowering the overall maintenance costs of a facility.
